

## Subject Index—Volumes 358-369

### A

- Abscess, myocardial, with cardiac perforation, after staphylococcal pyemia, **362:6** (classic article)
- Abstracts, presented at AAOS annual meeting, publication rates for, **359:247**
- Academic Orthopaedic Society, diversity among surgical residents and, **360:253**
- Acetabular component. *See also* Total hip arthroplasty
- fixation of, **369:157**
- gamma-crosslinked polyethylene, wear of, **369:73**
- porous coated Omnifit, **364:164**
- stress produced by, photoelastic analysis of, **369:165**
- Acetabular dysplasia, untreated, in Navajo, **364:108**
- Acetabular fractures, surgery for, outcome of, **366:205**
- Acetabular osteoid osteoma, percutaneous resection of, **365:167**
- Acetabular reconstruction
- Mueller roof reinforcement rings for, **362:125**
- for periacetabular metastatic disease, **362:171**
- Acetabular redirection osteotomies, planning of, based on joint contract pressures, **364:134**
- Achilles tendon
- neurotransmitter responsiveness of, in pregnant and nonpregnant females, **365:237**
- transplanted, biologic attachment of to endoprosthesis, **358:101**
- Acrylic bone cement, leaching time for peptide antibiotics from, **363:232**
- Adenocarcinoma, papillary clear cell, of groin, arising from endometriosis, **361:192**
- Adolescents
- occipitocervical fusion in, **364:125**
- rotationplasty in, **358:75**
- Afferent units
- drug sensitivities of, postinflammatory changes in, **369:340**
- mechanosensitive, in shoulder and adjacent tissue, **369:340**
- Affirmative action. *See also* Racial diversity
- in medical education, **362:34**
- African Americans. *See also* Racial diversity
- in American medicine, **362:12**
- Aiming systems, radiation independent, **364:267**
- Alcohol abuse, by amputees, **361:98**
- Allografts. *See also* Bone graft(s)
- extensor mechanism, in total knee arthroplasty, **367:123**. *See also* Bone grafts
- Alveolar soft part sarcoma, involving ilium, **359:197**
- Ambulation, postamputation, gait training for, **361:91**
- Ambulatory aid, for lower extremity amputees, **361:91**
- American Academy of Orthopaedic Surgeons, annual meeting of, publication rates of abstracts presented at, **359:247**
- Amikacin, for chronic osteomyelitis, **360:47**
- Aminoglycosides, for chronic osteomyelitis, **360:47**
- AML total hip prosthesis, **360:147**
- Amoxicillin, for chronic osteomyelitis, **360:47**
- Ampicillin, for chronic osteomyelitis, **360:47**
- Amputation
- knee disarticulation, **361:23**
- lower extremity
- back pain after, **361:29**
- phantom/residual limb pain after, **361:29**
- rehabilitation in, **361:91**
- surgical advances in, **361:2**
- midfoot, **361:85**
- prostheses for. *See* Prosthesis(es)
- psychosocial aspects of, **361:96**
- rehabilitation in
- physical and functional aspects of, **361:91**, **361:109**
- psychosocial aspects of, **361:98**
- transfemoral
- biomechanics and technique of, **361:15**
- prosthetic sockets for, **361:48**
- transtarsal, **361:85**
- transtibial, socket for, **361:76**
- Analgesia with femoral nerve block, for anterior cruciate ligament repair, **369:289**
- Anastomosis, end-to-end, of transected nerves, for neuroma prevention, **369:327**
- Aneurysmal bone cysts
- epidemiology of, **363:176**
- juxtaphyseal, **364:205**
- magnetic resonance imaging of, **366:186**
- Angiography, for preoperative chemotherapy, for sarcoma, **360:197**

## Subject Index—Volumes 358-369

### A

- Abscess, myocardial, with cardiac perforation, after staphylococcal pyemia, **362:6** (classic article)
- Abstracts, presented at AAOS annual meeting, publication rates for, **359:247**
- Academic Orthopaedic Society, diversity among surgical residents and, **360:253**
- Acetabular component. *See also* Total hip arthroplasty
- fixation of, **369:157**
- gamma-crosslinked polyethylene, wear of, **369:73**
- porous coated Omnifit, **364:164**
- stress produced by, photoelastic analysis of, **369:165**
- Acetabular dysplasia, untreated, in Navajo, **364:108**
- Acetabular fractures, surgery for, outcome of, **366:205**
- Acetabular osteoid osteoma, percutaneous resection of, **365:167**
- Acetabular reconstruction
- Mueller roof reinforcement rings for, **362:125**
- for periacetabular metastatic disease, **362:171**
- Acetabular redirection osteotomies, planning of, based on joint contract pressures, **364:134**
- Achilles tendon
- neurotransmitter responsiveness of, in pregnant and nonpregnant females, **365:237**
- transplanted, biologic attachment of to endoprosthesis, **358:101**
- Acrylic bone cement, leaching time for peptide antibiotics from, **363:232**
- Adenocarcinoma, papillary clear cell, of groin, arising from endometriosis, **361:192**
- Adolescents
- occipitocervical fusion in, **364:125**
- rotationplasty in, **358:75**

- Aminoglycosides, for chronic osteomyelitis, **360:47**
- AML total hip prosthesis, **360:147**
- Amoxicillin, for chronic osteomyelitis, **360:47**
- Ampicillin, for chronic osteomyelitis, **360:47**
- Amputation
- knee disarticulation, **361:23**
- lower extremity
- back pain after, **361:29**
- phantom/residual limb pain after, **361:29**
- rehabilitation in, **361:91**
- surgical advances in, **361:2**
- midfoot, **361:85**
- prostheses for. *See* Prosthesis(es)
- psychosocial aspects of, **361:96**
- rehabilitation in
- physical and functional aspects of, **361:91**, **361:109**
- psychosocial aspects of, **361:98**
- transfemoral
- biomechanics and technique of, **361:15**
- prosthetic sockets for, **361:48**
- transtarsal, **361:85**
- transtibial, socket for, **361:76**
- Analgesia with femoral nerve block, for anterior cruciate ligament repair, **369:289**
- Anastomosis, end-to-end, of transected nerves, for neuroma prevention, **369:327**
- Aneurysmal bone cysts
- epidemiology of, **363:176**
- juxtaphyseal, **364:205**
- magnetic resonance imaging of, **366:186**
- Angiography, for preoperative chemotherapy, for sarcoma, **360:197**

- Animal models  
for bone replacement in critical size defect, 364:231  
of chronic synovitis, 361:228  
for incorporation of bone allograft, 368:260
- Ankle  
arthrodesis of, long-term results of, 361:178  
cartilage of, in diabetes mellitus, 368:182  
chronic lateral pain in, peroneus longus tendon rupture and, 365:163  
instability of, modified Watson-Jones tenodesis for, 12-year outcome after, 358:194  
synovial sarcoma of, 364:220
- Ankle disarticulation, Syme's, restoration of walking ability with, 361:71
- Ankylosis  
panclavicular, in pustulotic arthroostitis, 359:146  
spontaneous, in rheumatoid arthritis, 366:8
- Antegrade locked nailing, for humeral fractures, 365:201
- Anterior cervical fusion, 359:4 (classic article)  
one-level, alternatives and techniques for, 359:67
- Anterior cruciate ligament, cellular metabolism of, estrogen and, 366:229
- Anterior cruciate ligament reconstruction  
analgesia with femoral nerve block for, 369:289  
neuromuscular electrical stimulation after, 368:166  
osteoarthritic changes after, 358:188  
poly-L-lactic acid fabric-cultured graft material for, 358:235  
in prepubescent patients, 364:40  
in young adults, cost effectiveness of, 367:272
- Anterior femoroacetabular impingement, after peri-acetabular osteotomy, 363:93
- Anterior floating method, for cervical myelopathy, from posterior longitudinal ligament ossification, 359:27
- Anterior lumbar interbody fusion, autogenic vs. allogenic bone grafts for, 360:122
- Anteromedial tibial sleeve release, in total knee arthroplasty, 366:264
- Antibiotic loaded Chitosan bar, for osteomyelitis, 366:239
- Antibiotic-resistant bacteria, treatment for, in total joint arthroplasty, 369:110
- Antibiotics  
biodegradable delivery system for, 362:240  
for chronic osteomyelitis, 360:47  
delivery of via biomimetic bone substitute, 367:S396  
for infected total hip arthroplasty  
for prophylaxis, 369:124  
for treatment, 369:110, 369:144  
leaching time from acrylic bone cement for, 363:232  
prophylactic, for total hip arthroplasty, 369:124  
for tibial osteomyelitis, 360:6, 360:14, 360:97  
with chronic infection, 360:47
- Antibiotic sensitivities, of afferent units, postinflammatory changes in, 369:340
- Anticoagulation, after total hip arthroplasty, with negative duplex screening, 361:168
- Anxiety, in amputees, 361:98
- Approaches, in periacetabular osteotomy, 363:45, 363:64
- Arm. *See also component parts*  
limb salvage procedures in. *See* Limb salvage  
osteosarcoma of. *See* Osteosarcoma  
pain in, in young woman, differential diagnosis of, 361:245  
paralyzed, shoulder fusion for, 364:281 (letter)  
upper, dorsal compartment syndrome, 366:107
- Armed services recruits, custom biomechanical shoe orthoses for, for stress fracture prevention, 360:182
- Arterial occlusion, after total knee arthroplasty, 366:164
- Arthritis  
degenerative  
ankle arthrodesis for, long-term results of, 361:178  
after anterior cruciate ligament repair, 358:188  
debridement arthroscopy for, 10-year results of, 367:190  
of knee, femorotibial offset in, 368:162  
patellofemoral, total knee arthroplasty in, 367:89  
rheumatoid. *See* Rheumatoid arthritis  
septic, molecular diagnostics for, 360:37
- Arthrodesis  
for ankle osteoarthritis, long-term results of, 361:178  
autogenous resection, of knee, 358:36  
double, for acquired flatfoot, 365:74  
with modular nail, for infected total knee arthroplasty, 367:230  
in rheumatoid arthritis, 366:8  
subtalar reposition, for acquired flatfoot, 365:69  
talonavicular, for acquired flatfoot, 365:65  
triple, for acquired flatfoot, 365:91  
of wrist, in rheumatoid arthritis, 366:78
- Arthroplasty, joint. *See* Total joint arthroplasty
- Arthroscopy  
debridement, 10-year results of, 367:190  
in patellar clunk management, 367:226
- Articular cartilage. *See* Cartilage
- Aspiration, of percutaneous popliteal artery thrombus, after total knee arthroplasty, 366:164
- Assistive devices, for lower extremity amputees, 361:91
- Atlantoaxial instability, C1-C2 fusion for, modified

- Gallie technique vs. transarticular screw fixation for, **359:127**  
 Atrophy, articular cartilage, immobilization-induced, recovery from, **362:218**  
 Otto Aufranc Award paper, **369:10**  
 Augmented rigidity device, for unstable intra-trochanteric fractures, **361:205**  
 Autografts. *See* Bone graft(s)  
 Avascular necrosis  
   of femoral head  
     genetic factors in, **363:268** (letter)  
     prognosis of, **358:149**  
   of hip, lesion size and outcome in, **367:262**  
 Axillary nerve injury, **368:5**  
 Azathioprine, for rheumatoid arthritis, **366:22**  
 Azithromycin, with rifampin, for osteomyelitis, **359:229**  
 Aztreonam, for chronic osteomyelitis, **360:47**

## B

- Back pain, after lower extremity amputation, **361:29**  
 Bacteria, antibiotic-resistant, treatment for, in total joint arthroplasty, **369:110**  
 Bailey-Dubow extensible nail, complications with, **366:286** (letter)  
 Basilar impression, transmaxillary anterior decompressions in, **359:115**  
 Below knee amputations, prostheses for, **360:110**  
 Belts, suspension, **361:55**  
 Bernese periacetabular osteotomy, **363:9**  
   modified, **363:38**  
   technical complications of, **363:81**  
 Biceps tendon, distal insertion of, rupture of, **363:100**  
 Bilateral posterior pelvic resection osteotomy, for bladder exstrophy, **364:70**  
 Biodegradable antibiotic delivery system, **362:240**  
 Biologic agents, for rheumatoid arthritis, **366:22**  
 Biomechanical test results, correlation of with radiographic measurements, **368:271**  
 Biomimetic bone substitute and drug delivery vehicle, **367:S396**  
 Biopsy, of musculoskeletal tumors, current concepts in, **368:212**  
 Biosynthetic bone grafting, **367:S107, 367:S118**  
 Blacks. *See* African Americans  
 Bladder exstrophy, bilateral posterior pelvic resection osteotomy for, **364:70**  
 Blood management  
   in total hip arthroplasty, in Jehovah's witnesses, **369:251**  
   in two-stage revision total knee arthroplasty, **367:238**  
 Blood supply, postoperative, of greater trochanter, **365:259** (letter)  
 Body mass, fracture risk and, **364:227**
- Bone  
   progressive deformation of, in rheumatoid arthritis, **366:8**  
   tubular, width of, bone bark and, **367:291**  
 Bone abnormalities, in rheumatoid arthritis, **366:8**  
 Bone and Joint Decade, **358:255** (editorial)  
 Bone bark, tubular bone width and, **367:291**  
 Bone cement, acrylic, leaching time for peptide antibiotics from, **363:232**  
 Bone cement plug restrictor, polyglycolide lactide, **364:254**  
 Bone cysts  
   aneurysmal  
     epidemiology of, **363:176**  
     juxtaepiphyseal, **364:205**  
     magnetic resonance imaging of, **366:186**  
   demineralized bone implants for, **364:61**  
   unicameral  
     calcaneal, surgical management of, **360:231**  
     magnetic resonance imaging of, **366:186**  
 Bone defects, repair of, **360:71**  
 Bone graft(s), **360:71**  
   in ankle arthrodesis, long-term results of, **361:178**  
   autogenous  
     vs. allogenic, in anterior lumbar interbody fusion, **360:122**  
     intraoperative extracorporeal irradiated, in tumor surgery, **368:196**  
     for tibial fraction nonunion, vs. Ilizarov techniques, **369:302**  
   biologic attachment of to endoprosthesis, **358:101**  
   biosynthetic, **367:S107, 367:S118**  
   for calcaneal unicameral bone cysts, **360:231**  
   evaluation of, goat model for, **364:231**  
   incorporation of, growth factors in, **368:260**  
   for infected tibial fracture nonunions, **360:71, 360:97**  
   in posterior spinal fusion, in scoliosis, **369:273**  
   in rheumatoid arthritis, **366:8**  
   transplantation immunity and, **367:S3** (classic article)  
   vascularized fibular, after excision of giant cell tumor, **359:189**  
 Bone graft substitutes, **360:71**  
   goat model for, **364:231**  
 Bone implants  
   demineralized, for fracture nonunion, cysts, and fibrous lesions, **364:61**  
   evaluation of, goat model for, **364:231**  
 Bone island, differential diagnosis of, **365:254**  
 Bone lesions, fibrous, demineralized bone implants for, **364:61**  
 Bone markers, after intramedullary fixed tibial fractures, **368:220**

- Bone marrow, with recombinant human bone morphogenetic protein-2, for osseous repair, **361:216**
- Bone marrow cells, culture of, on poly-L-lactic acid fabrics, **358:235**
- Bone marrow margins, in osteosarcoma resection, **363:170**
- Bone metastasis  
cervical spinal, **359:89**  
differential diagnosis of, **360:265**  
failed treatment of, **358:128**  
operative treatment of, failures after, **358:128**  
periacetabular, pelvic reconstruction for, **362:171**  
in renal cell carcinoma, surgery for, **367:283**
- Bone morphogenetic protein-12 gene transfer, effect of on mesenchymal progenitor cells, **369:333**
- Bone morphogenetic proteins  
carrier systems for, **367:S95**  
in sarcomas, **365:175**
- Bone regeneration and repair  
bone marrow and recombinant human bone morphogenetic protein-2 in, **361:216**  
tissue engineering models of, **367:S59**
- Bonesetters, **363:258**
- Bone substitute  
 $\alpha$ -BSM<sup>R</sup>, **367:S396**  
evaluation of, goat model for, **364:231**
- Bone tissue engineering, **367:S17-S133**, **367:S410**, **367:S419**. *See also* Tissue engineering  
bioactive factors for, **367:S84**  
biosynthetic bone grafting in, **367:S107**  
bone regeneration models in, **367:S59**  
carrier systems for bone morphogenetic proteins in, **367:S95**  
cell-based strategies in, **367:S68**  
synthetic biodegradable polymers for, **367:S118**
- Bone tumors. *See also* Cancer; Sarcoma and specific sites and types  
biopsy of, current concepts in, **368:212**  
of coracoid process of scapula, **358:205**  
giant cell  
cryosurgery for, long-term results of, **359:177**  
excision of, vascularized fibular graft in, **359:189**  
limb salvage procedures for. *See* Limb salvage  
marginal excision for, with caffeine assisted chemotherapy, **358:27**  
metastatic. *See* Bone metastasis  
preoperative chemotherapy for, angiographic assessment for, **360:197**  
upper extremity, endoprosthetic reconstruction for, **360:207**
- Boutonniere deformity, in rheumatoid arthritis, repair of, **366:78**
- Boyd and Anderson repair, for distal biceps rupture, **363:100**
- Brace, for acquired flatfoot, **365:39**
- Brachial neuritis, **368:37**
- Brachial plexus palsy  
in earthquake victims, **362:208**  
neonatal  
shoulder dysfunction in, **368:101**  
shoulder reconstruction in, **364:144**
- Brain-injured patients, heterotopic ossification of hip in, surgery for, **365:130**
- Branched-chain DNA reaction, for musculoskeletal infections, **360:37**
- Bridging callus, around knee endoprosthesis, **363:180**
- $\alpha$ BSM<sup>R</sup> biomimetic bone substitute and drug delivery vehicle, **367:S396**
- C**
- Calcaneal osteotomies, for acquired flatfoot, **365:50**
- Calcaneus, unicameral bone cysts of, surgical management of, **360:231**
- Calcitonin gene related peptide, Achilles tendon responsiveness to, in pregnant and nonpregnant females, **365:237**
- Calcium phosphate, as bone graft substitute, **360:71**
- Calcium sulphate, as bone graft substitute, **360:71**
- Callus, endocortical bridging, around knee endoprosthesis, **363:180**
- Cancer. *See also* Sarcoma; Tumor(s) and specific sites and types  
bone metastasis in. *See* Bone metastasis  
in chronic osteomyelitis, **362:181**  
limb salvage procedures for. *See* Limb salvage  
preoperative chemotherapy for, angiographic assessment for, **360:197**  
renal cell, bone metastases in, surgery for, **367:283**  
upper extremity, endoprosthetic reconstruction for, **360:207**
- Capitellocondylar prosthesis, in total elbow replacement, **366:61**
- Carbon Copy High Performance foot, **360:110**
- Cardiac disease, congenital, spinal fusion in, **364:99**
- Cartilage  
of ankle, in diabetes mellitus, **368:182**  
biologic repair of, animal models of, **367:S135**  
immobilization-induced atrophy of, recovery from, **362:218**  
of knee  
debridement arthroscopy of, **367:190**  
meniscal  
bioengineered repair of, **367:S244-S293**  
cyst of, **362:251**  
transplantation of, **360:159**  
metabolism in, tensile load and, **359:221**  
repair of  
autologous mesenchymal progenitor cells in, **367:156**  
failure of, histologic tissue analysis of, **365:149**

- Cartilage tissue engineering, **367**:S135-S293,  
**367**:17. *See also* Tissue engineering  
articular surface restoration methods in,  
**367**:S224  
autologous chondrocyte transplantation in,  
**367**:S147  
autologous mesenchymal progenitor cells in,  
**367**:S156  
bioengineering considerations in, **367**:S204  
current limitations and solutions in, **367**:S176  
defect models in experimental animals and matrix  
requirements in, **367**:S135  
fibroblast growth factor receptor-3 as marker for  
precartilaginous stem cells in, **367**:S163  
frontiers in, **367**:S46  
meniscal repair in  
    biologic considerations in, **367**:S244  
    biomechanical considerations in, **367**:S254  
    collagen implants in, **367**:S281  
    current and future directions in, **367**:S273  
    periosteum in, **367**:S186  
    in repair of osteochondral defects, **367**:S382  
    in vitro modulation of chondrogenesis, **367**:17
- Cefazolin, for chronic osteomyelitis, **360**:47  
Cefotaxime, for chronic osteomyelitis, **360**:47  
Ceftazidime, for chronic osteomyelitis, **360**:47  
Ceftriaxone, for chronic osteomyelitis, **360**:47  
Cement, acrylic, leaching time for peptide antibiotics  
from, **363**:232  
Cement plug restrictor, polyglycolide lactide,  
**364**:254  
Cephalosporins, for chronic osteomyelitis, **360**:47  
Ceramic bearing surfaces, in total hip arthroplasty,  
**369**:73  
Cerebral palsy  
    dorsal rhizotomy in, spinal deformity after, **364**:48  
    femoral anteversion and neck-shaft angle in,  
**364**:195  
Cervical myelopathy  
    from posterior longitudinal ligament ossification  
        anterior floating method for, **359**:27  
        expansive laminoplasty for, **359**:35  
    spondylotic, surgical techniques for, **359**:58,  
**359**:67  
Cervical radiculitis, shoulder disorders and, **368**:105  
Cervical spinal cord injury, early vs. delayed surgery  
for, **359**:104  
Cervical spinal fusion  
    anterior, **359**:4, **359**:4 (classic article)  
    one-level, alternatives and techniques for,  
**359**:67  
    C1-C2, modified Gallie technique vs. transarticu-  
lar screw fixation for, **359**:127  
    posterior, **359**:4, **359**:4 (classic article)  
Cervical spine

  - autologous cartilage, **367:S147**
  - of bone, evocation of immunity in, **367:S3** (classic article)
  - of functioning muscle, after sarcoma excision, **358:140**
  - tendon
    - biologic attachment of graft to endoprosthesis, **358:101**
    - for brachial plexus birth palsy, **364:144**
- Transtarsal amputation, **361:85**. *See also* Amputation
- Transtibial amputation. *See also* Amputation
  - rehabilitation after, **361:108**. *See also* Rehabilitation, postamputation
  - socket for, **361:76**
  - suspension systems for, **361:55**
  - technique of, **361:108**
- Trimethoprim-sulfamethoxazole, for chronic osteomyelitis, **360:47**
- Triple arthrodesis, for acquired flatfoot, **365:91**
- Trochanteric blood flow, in total hip arthroplasty, with posterior approach, **363:151**
- Trochanteric fractures, reinforced rigid fixation device for, **361:205**
- Trochanterotomy, greater trochanter blood supply after, **365:259** (letter)
- Tuberculosis, of sacroiliac joint, **358:215**
- Tumor(s). *See also* Cancer; Sarcoma and specific sites and types
  - amputation for. *See* Amputation
  - biopsy of, current concepts in, **368:212**
  - cervical spinal, in 11-year-old girl, differential diagnosis of, **368:287**
  - in chronic osteomyelitis, **362:181**
  - of coracoid process of scapula, **358:205**

## giant cell

cryosurgery for, long-term results of, **359:177**  
excision of, vascularized fibular graft in,  
**359:189**

limb salvage procedures for. *See* Limb salvage  
marginal excision for, with caffeine assisted che-  
motherapy, **358:27**

metastatic. *See* Bone metastasis

preoperative chemotherapy for, angiographic as-  
sessment for, **360:197**

upper extremity, endoprosthetic reconstruction  
for, **360:207**

## U

Ulnar drift, in rheumatoid arthritis, repair of, **366:78**

Ulnar nerve palsy, in earthquake victims, **362:208**

Ultrasonography, duplex, in venous thrombosis  
screening, in total hip arthroplasty, **361:168**

## Unicameral bone cysts

calcaneal, surgical management of, **360:231**

magnetic resonance imaging of, **366:186**

Unicompartmental knee arthroplasty, follow-up for,  
**367:50, 367:61**

Upper extremity. *See also component parts*  
dorsal compartment syndrome in, **366:107**

limb salvage procedures in. *See* Limb salvage  
osteosarcoma of. *See* Osteosarcoma

pain in, in young woman, differential diagnosis  
of, **361:245**

paralyzed, shoulder fusion for, **364:281** (letter)

## V

Valgus osteotomy, failed intertrochanteric, total hip  
arthroplasty after, **364:175**

Vancomycin, for chronic osteomyelitis, **360:47**

Van Nes rotationplasty, in skeletally immature pa-  
tients, **358:75**

Varus deformity, medial epicondylar osteotomy for,  
in total knee arthroplasty, **367:141**

Vascularized fibular graft, after excision of giant cell  
tumor, **359:189**

Vastus splitting approach, vs. median parapatellar  
approach, in total knee arthroplasty, **367:107**

Venous thrombosis, after total hip arthroplasty  
delayed weightbearing and, **361:123**

with negative duplex screening, **361:168**

Vertical shear fractures, of femoral neck, biome-  
chanics of, **367:300**

Volar dislocation, of ring finger metacarpophal-  
angeal joint, **363:116**

Volar subluxation, of metacarpophalangeal joints, in  
rheumatoid arthritis, **366:78**

## W

Wagner spherical periacetabular osteotomy,  
**363:38**

Waist belts, **361:55**

Watson-Jones tenodesis, modified, for ankle instabil-  
ity, 12-year outcome after, **358:194**

## Wear/wear debris

assessment of, **365:117, 369:59**

femoral head roughness and, **358:223, 369:73**

with gamma-crosslinked polyethylene acetabular  
component, **369:73**

osteolysis and component loosening and,  
**363:135, 369:157**

radiographic evaluation of, **365:117**

in synovial fluid, in failed knee arthroplasty,  
**359:167**

Weight, fracture risk and, **364:227**

Wilmer elbow/shoulder orthosis, **364:281** (letter)

Wire fixation. *See* Ilizarov external fixation

## Women

Achilles tendon neurotransmitter responsiveness  
in, **365:237**

in orthopaedic residency, **362:65**

Wound closure, in total knee arthroplasty, **368:176**

## Wrist

arthrodesis of, in rheumatoid arthritis, **366:78**

fractures of, body mass and, **364:227**

lacerations of, zone 5, accuracy of preoperative  
examination of, **365:104**

rheumatoid arthritis of, **366:72**

## X

## X-rays

digital, in evaluation of regenerate bone stiffness,  
in distraction osteogenesis, **366:221**

flexion and extension, of cervical spine, in acute  
injury, **365:111**

two- vs. three-dimensional, of polyethylene wear,  
**365:117**

## Z

Zymosan, biocompatibility of, coculture system for  
assessment of, **365:230**
